

## **Alice N. Bravo, P.E.**

### ***FDOT District Six Director of Transportation Systems Development***

Alice Bravo was appointed District Six Director of Transportation Systems Development for the Florida Department of Transportation on March 23, 2007. She is responsible for all production aspects of the District including all Planning, Public Transportation, Environmental Management, Design and Right of Way activities. Ms. Bravo has been with the Florida Department of Transportation since August 2003 when she joined as District Planning and Environmental Management Engineer.

Ms. Bravo's professional career began at PBS&J in 1991 as a bridge designer and highway engineer responsible for developing concepts and highway geometry. A year later in 1992, she earned her Bachelor of Science Degree in Civil Engineering from the University of Miami in

Coral Gables, Florida. Ms. Bravo went on to earn a Master of Business Administration Degree from Florida International University in 1996.

In 1997, Ms. Bravo joined Gannett Fleming, Inc. a national top 50 ENR firm focusing on transportation and environmental engineering. Upon her departure from Gannett Fleming in 2003, she was a Vice-President and served as the Regional Manager for South Florida and Puerto Rico overseeing over 30 professionals.

An active member of her professional community, Ms. Bravo served as President of the Miami-Dade Branch of the *American Society of Civil Engineers* during the 1999-2000 term and also served as Branch Director. She also had the honor of being asked to join the *University of Miami, Civil, Architectural and Environmental Engineering Department Industrial Advisory Board* and in 2004 became Chair of the Board. In 2007, Ms. Bravo was named as a Board Member of the *Girl Scout Council of Tropical Florida*.

Ms. Bravo is a licensed Professional Engineer in Florida since 1997 and in Puerto Rico since 2000.
